

FAMAG on company holidays?

Due to holidays many companies are closed in summertime. But what if a tool is needed urgently?

Also this year, FAMAG will have **no** company holidays. You can reach us as usual from Monday to Friday from 8.00 to 16.45 o'clock.

This service we offer you also in our production. But our employees in the special design department want to make holidays therefore the delivery times for special designs can be a little longer than usual.

The daily forwarding agency and parcel service occurs as customary. The daily pickup occurs at 15.00 o'clock. Of course we can deliver the goods in urgent cases also directly to your customer.

And when the goods have to be very quick at a building lot you can use an express delivery for 8:30 o'clock, 10 o'clock, 12 o'clock or 18 o'clock. Don't hesitate to contact us for further information. We'll gladly tell you about the details and costs.

Summing up that means:

Established service also in the summer months!
